Faculty Member
Alicia Simmons

Support Staff
Ahmad Khazaee & Zlatko Grozl

Technology:

**Splashtop Whiteboard**
This iPad app gives the user freedom to move around the classroom, while controlling and annotating the content on the classroom computer over the wireless network.

**Learning Goals:**

- Increasing student engagement in class
- Improved control of the lecture
- Ability to annotate content and share it with students

**Class Size:** 10 - 20

**Description:**
Faculty can take full control of the classroom computer from an iPad while not being tethered to the podium. The annotation feature allows the faculty member to annotate over any content projected on the screen, and later share these annotations with students via email or Moodle.
